

NOTICE TO STUDENTS:

Students must satisfy all prerequisite requirements to receive an override for their next-level Biomedical Engineering courses.

Current UNT Students :

Students currently taking a prerequisite course are able to enroll in subsequent Biomedical Engineering courses.

Students with Transfer Credit :

A passing grade for a prerequisite should be posted on your student account.

If the grade is not posted on your account, an unofficial transcript must be submitted to the Biomedical Engineering administrators as proof of prerequisite completion before an override can be processed.

Course prerequisites are available in the UNT Catalog for your reference.
