

Kamesh Namuduri, Professor
Department of Electrical Engineering
Director, Autonomous Systems Laboratory

Research Interests: Emergency Communications, Airborne Networks, and Image and Video Communications

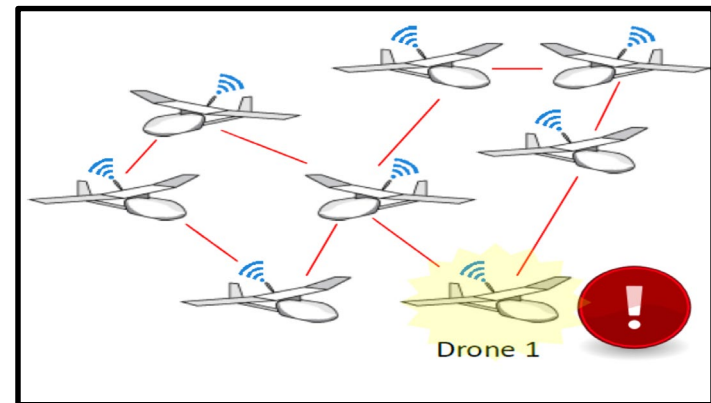

Flying cell Towers for Emergency Response

Principal Investigator, “Networked Aerial Base Stations for Enabling Emergency Communications During Disaster Recovery”

Aerial Communications and Networks

Chair, IEEE P1920.1 Working Group, Standards for Aerial Communications and Networks

Chair, Ad hoc Committee on Drones, IEEE Vehicular Technology Society
