Project Abstract
The purpose of this project is to continue development of the CirclesU app developed in last year’s capstone group. We were tasked to implement “Sign on with Google”, separating Circle data, fixing and creating editable profile pages, and finalizing Incognito Mode features.

Future Improvements
- Edit to look more like wireframes
- Implement Private Messaging service

Challenges
- Learning existing application/system structure
- Mandatory Expo SDK upgrade troubleshooting

Still to Complete
- Finalize login addition
- Finalize profile pages
- Remove posting for Incognito Mode

Sponsors
- Parker Wallace
- Keith Armstrong
- Pranjal Dhungana
- Blake Becker

Tools Used/Learned
- Expo
- React Native
- NodeJS
