

Theme: Applied Eng. Education and Workforce Partnerships

## Engaging Students with Industry and Research

Eric Adams and Ernest Huffman

Moderator: Kamesh Namuduri

Thursday, 3:00pm – 4:00 pm

Room: K120

North Texas is expected to be one of the few regions in the country where Advanced Air Mobility (AAM) services are expected to be deployed in the near future. This panel discusses the opportunities that will come up for students to engage with the industry and pursue research in this emerging area. The panelists have been actively involved in the AAM National Campaign over the past three years.

**Ernest Huffman** works for the North Central Texas Council of Governments as an Airport Planning and Education Program Manager.

**Eric Adams** is the CEO and owner of two companies, Delmont System, specializing in aviation related edge-to-cloud software services, and TxSense, with a focus on remote weather sensor design and operations.

**Kamesh Namuduri** is a Professor of Electrical Engineering at UNT.
