The computer science and engineering alumni network is well established and continually growing.

VALUE

The program ranked 4th in the nation for best annual return on investment value for computer science degrees by PayScale.com.

PROFESSIONAL DEVELOPMENT

You can earn certifications as part of your degree or as stand-alone professional development certifications.

Cybersecurity and Data Science courses are being offered this fall at **UNT's New College Frisco**

Do you have a background in computer science and a desire to take your skills to the next level? The executive master's in computer science with concentrations in data science and cybersecurity will help you become an expert, master the latest technologies and rise through the ranks.

Available at UNT's New College at Frisco, the program is designed for experienced working professionals who want to build upon their expertise. And it is built with your convenience in mind.

Classes are offered in 8-week sessions on nights and weekends, during the fall, winter and spring, so you can schedule it around your work and family life. You can earn professional certifications along the way to earning your master's degree to distinguish yourself as an expert in data science or cybersecurity.
