

College of Engineering Outstanding Staff of the Year

Staff play a key role in advancing the college, and their performance above and beyond expectation should be recognized. The CENG Outstanding Staff of the Year initiative seeks to do just that and will celebrate staff from across the college.

One to two staff from the College and departments will be selected through an electronic and anonymous nomination process by all faculty, staff, and students in late March. The top candidates will be selected by the College Executive Committee.

CENG Outstanding Staff will have the opportunity to participate in professional development paid by the college and will be recognized and honored at the welcome-back event of the college in early Fall.
